

**DUPLI-COLOR SILVER CHROME****Technical Information**

High-gloss effect spray which gives a look similar to chrome. Due to the new quality, which is resistant to abrasion and to weathering, the spray can be used to paint outdoor objects.

Suitable for all smooth surfaces, for the design of all kinds of decorative objects where a very high degree of gloss is desired.- and abrasion-resistant. Temperature-proof up to 150°C. To achieve the effect, a very smooth dark ground is necessary.

**Ord.-no:** 674778

**Quality & properties**

High-grade quality lacquer with a special combination of resins  
Very good coverage  
Excellent adhesion  
Good flow  
Quick-drying  
Resistant to abrasion  
Weather-resistant, light-proof, UV-resistant  
Scratch-, shock- and impact-resistant  
Temperature-resistant up to 150°C  
Coatable

**Physical & chemical data**

Base: Special resin  
Colourname: silver  
Degree of gloss: gloss GU  
Efficiency: 400 ML – 1.5 m<sup>2</sup>  
Dry to touch: 1 h  
Dust dry: 15 min  
Completely dry: 12 h  
Surfaces: decorative objects and outdoor objects  
Minimum Working Temperature: 10 °C  
Maximum Working Temperature: 25 °C  
Flash point: n.a.  
Storage stability: 10 y  
Content: 400 ML

### How to use

The ground has to be clean, dry and free from fat.

Cover areas not to be painted.

Before use, shake can for 3 minutes.

Test spray at an invisible spot.

Spray from a distance of 25 cm several thin coats.

Between the layers let lift off for 5 minutes, then apply the next layer. Repeat this till the desired effect is achieved.

Remark: In order to achieve the effect, a very smooth surface is necessary. Uneven surfaces should be filled, sanded and primed with a black primer, in order to grant an optimal result.

If a primer, e.g. DUPLI-COLOR Effect Primer black is used, this has to dry for at least one hour, before the application of the effect top coat.

A black ground is the basis and condition for an excellent Silver Chrome Effect, e.g. by priming with DUPLICOLOR EFFECT PRIMER black.

Prime coatable plastics generally with Plastic Primer, e.g. DUPLI-COLOR PLASTIC PRIMER.

### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

**As of May 21, 2025** – This release replaces all eventually earlier issued versions.
